

Bio Scale Remover

Digests both Washroom Limescale and Organic Material

A novel, dual action sachet that removes limescale and digests the organic materials found in toilet bowls, urinals, vacuum systems and drains.

KEY PROPERTIES

Bio Scale Remover's formulation provides effective solutions to limescale, organic build up and malodours. Supplied in a blue water soluble sachet, its micro-organisms successfully digest organic material that leads to malodours. The organic acids found in each sachet combats limescale, efficiently breaking down and removing it.

- Removes Limescale
- Degrades organic material
- Vacuum system friendly
- Combats malodours

APPLICATION

Bio Scale Remover is supplied in easy to use, blue 50 gram sachets. Do not open or remove contents from the sachet as the sachet is designed to dissolve in water.

Toilets – add one sachet to bowl. After one minute, scrub bowl and then flush toilet. Repeat procedure once a week or as required.

Drain and Urinals – place one sachet in 1 Litre of water. Wait until sachet is completely dissolved. Pour solution directly into drain.

TECHNICAL DATA

| | |
|-------------------|-------------------------------------|
| Packaging | Blue powder in water soluble sachet |
| Bacteria Count | 1.5×10^7 cfu/ml |
| Sachet Dimensions | 80 x 80mm |
